PERSONAL PROFILE

I am a Full Stack Engineer currently leading a department of Solutions Engineers and looking for an opportunity to communicate, consult and lead teams.

With experience in solutions engineering, communication and performance coaching I offer a people-first perspective on leading Software Engineering teams.

LANGUAGES

English - Native

Deutsch - C1

Französisch - A2

EDUCATION

University of the West of England, Bristol

Mechanical Engineering, BEng
First Class Honours,
September 2017 to March 2020

ACHIEVEMENTS

Management:

- Developed a team of 3 to a department of 9.
- Implemented a hiring policy, created coaching and collaboration rituals and developed a multi-disciplinary team capable of account managing and developing the managed projects of up to 25 customers.
- As a member of the Senior Management Team I worked to define the resource requirements to onboard multiple new projects whilst leading the department into a position to deliver work sustainably and without compromise.
- Designed and implemented a roles and performance appraisal process
- Worked closely with the Geschäftsleitung on strategy for the team and the overall effort alignment across future product features

Full Stack Solutions Engineering

- Experience account managing customers, consulting in pre- and post-sales technical development, contract negotiations and project management
- Senior solutions management of the largest publishers in the DACH region including Suddeutsche Zeitung, Neue Pressegesellschaft and Handelsblatt Media Group
- Experience delivering solutions in Javascript, Vue.js, React, and NodeJS with Express built on RDBMs including postgresSQL
- CI/CD with Kubernetes, Docker, Flux and terraform on Azure and AWS
- Test Driven Development using frameworks including Jest, Cypress, Mocha and Chai
- Prototyping and implementing full stack APIs using Representational State Transfer API models and Websockets
- Consuming and integrating third-party systems and APIs
- Version control with Git and Github.
- Educated in Python frameworks such as Flask and Django.
